BOYS ARE THE LIMIT

By CLARA STACY.

"I actually hate to tell Jimmy about it!" declared Jimmy's mother, shiveringly, staring at the fusbionable invitation and with despairing eyes. "You," said Jimmy's father, with understanding. Then he added,

"Hoys certainly are the limit!" "Jimmy's nearly fitteen," pursued Jimmy's mother. "I don't see why he lan't old enough not to act like a young savage. Whenever I make him go to a party you would think I was easting him into a den of man eating tigers, to hear him protest. He says girls are ninnies and he'd rather play football!"

"Soons to me," said Jimmy's father, "that I used to like to go to parties when I was fifteen. I can't understand him!

"If I didn't stand over him," said Simmy's mother, "every single miunte, he'd get in his old clothes, with tennie shoes and a negliges shirt, and wouldn't care! It's just awfull I'm sure I don't know what my friends think of me. "I won't say anything about it to him," decided Jimmy's mother, diplomatically, "until the day before. Then he won't have so long a time to object and make life miserable for

Jimmy's mother had occasion many times in the ten days that followed to be thankful for this decision, for Jimmy proved syddenly very difficult to deal with, in splip of his ignorance of the fate that was impending.

The boy stared gloomily out of the window and he poured as gloomily over the contents of his deak.

Once, to her great alarm, his mother found his sorting out his necktie drawer.

"Aw, nothin'!" he growled, when she demanded to know the reason for this unheard-of interest in his attire. "Can't a fellow do anything without the whole family buzzing about his ears? Wish't I had the money dad put in that dress suit of mine! don't get any use out of it! I could buy two or three dandy football sutta!"

Jimmy did not ask for a second piece of chocolate pie when it came on for dessert that night, which in itself was a serious armptom of something wrong. He scorned griddle cakes the next morning and he said he did not want any funch.

His mother felt his pulse, and insisted on looking at his tongue. "I hope," said Jimmy's mother to Jimmy's father, "that he won't do anything rush when I tell him about the Mikleson party. He's in such abdreadful humor these days that I don't know in the least how to handie him. He's likely to say he won'

Never had seen anything like it. "Gee!" said Jimmy, as he folded his neck scarf with painful precision and carefully got into his overcoat. "I was awfully sore all work! I thought I wasn't asked to the Mikisson's party, and overyone else was talking about I'm going to take Ethel," he added heatily and somewhat defigutly, "Slam was going to, but when I found I could go, too, she ditched him. SCALP TROUBLE FOR YEARS

268 Harrison St., Elyria, Ohio.- "My case was a scalp trouble. I first noticed small bunches on my scalp which commenced to itch and I would scratch them and in time they got larger, forming a scale or scale with a little pus, and chunks of hair would come out when I would scratch them off. It canned me to lose most of my hair. It became thin and dry and lifeless. I was troubled for over ten years with it until it got so had I was ashamed to go to a barber to get my hair cut.

"I tried everything I could get hold of, ---- and ----, but received no cure until I commenced using Cutter ra Soap and Distment when the scale commenced to disappear. The way I used the Cuticura Scap and Cintment was to wash my scalp twice a day with warm water and Cuticura Soap and rub on the Cuticura Cintment.
